

AMERICAN MATH COURSE SYLLABUS

I. Course Information

Course Title: Geometry Grade 9

Class meeting time: 2 times a week and on portal

Teacher's Name: Mr. Anselm

Contact: uanselm@fasny.org

II. Course Description

This class is an accelerated geometry course focusing on American mathematics strategies and specific language. Throughout the year, we will study the essentials of geometry, prove statements, analyze congruence, apply transformations, understand geometric inequalities, define slopes and equations and study various shapes.

III. Text Book

Ann Xavier Gantert – Geometry

IV. Grading

| | |
|--------------------------------|-----|
| - Class Participation | 10% |
| - Homework | 10% |
| - Quizzes (entry & exit slips) | 30% |
| - Class tests | 50% |

Homework policy:

All the homework will be inspected for completion. - 100% for completing your homework

All homework must be clearly labeled.

After two late or missing homeworks, you will be sent to study hall to complete the missing work. If your material is missing (i.e. no book), you will be sent to study hall and your homework will be graded on accuracy (work must be shown with answers).

V. Class Expectations

1. Come to class prepared.
2. Raise your hand to be acknowledged.
3. Ask questions.
4. Actively listen
5. Take careful notes from the board.
6. Respect others and yourself.
